

WELLAND GOULD SMITH SCHOOL. CLASS 3

SUBJECT : SCIENCE CHAPTER -2

TOPIC : FOOD AND SHELTER OF ANIMALS.

WORK - SHEET.

••SYNOPSIS••

All animals are living things. They need food to grow , to build up their bodies and to get energy .
Animals are divided into three group.

1. Herbivorous -

These animals eat grass or green plants . Buffaloes , Cows, Goats are examples of Herbivorous

2. Carnivores -

These animals eat the flesh of those animals that eat plants . Example - Frog, Cat, Lion.

3.Omnivores -

These animals eat both plants as well as animals. Example - Bear. Some animals eat their food as a whole

example - Frogs, Lizards , Snakes and Crocodiles. They do not use their teeth to bite or chew .They have sticky tongues. Animals like Horses, Cows, Buffaloes , Camels, Sheep and Goats first nibble their food and then chew the cud. These animals are called cud chewing animals. Animals that have pair of large and sharp front teeth in the upper and lower jaws and help them in biting and cutting are called animals that gnaw their food .

Example - rats, rabbits

Babies of goats, dogs, pigs, cows, suck milk of their mothers

Shelthers of some animals

Cows are kept in a Cattle shed.

Horses are kept in a stable

Dogs are kept in a kennel

Hens are kept in cages called coop birds live in their Nest .

Fishes are kept in a Aquarium.

We must take good care of our domestic animals by giving them proper food and shelter. We must

Clean their home. If our domestic animals fall sick or get hurt we should give them first aid and get them checked by a veterinary doctor. We should be kind to animals.

=====

A. Fill in the blanks by

Choosing suitable words from the following

{ crocodile, pigeons, cats,

Three, horse's }
