

Welland Gouldsmith School

Plant Me More

Class – II

Time – 30 minutes

1. Look at the plant, description below and then label the parts of the plant in the picture. Also colour the plant:-

Flower: the flower makes seeds

Stem: the stem supports the plants.

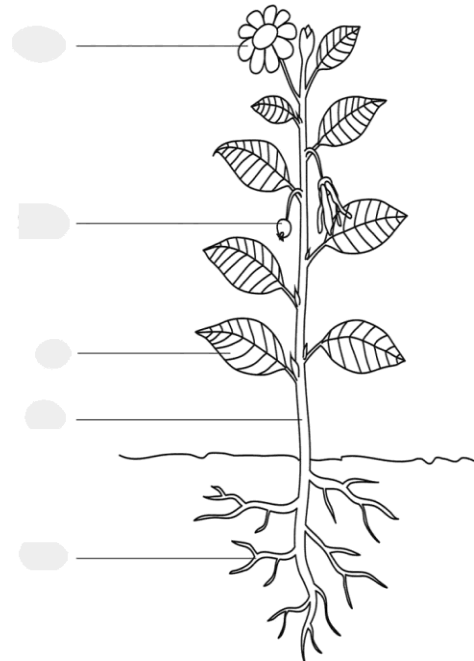

It also carries food, water and minerals to the rest of the plant.

Leaves: leaves help the plant to make

food with the help of carbon-dioxide ,water and sunlight.

Roots: the root soak up water and minerals

And store food for the plant.

2. The little girl wants to pick some flowers for her Grandma. Can you guide her through the maze to get them?

Flower Maze
