

## Welland Gouldsmith School

Class :4

Subject: computer

Chapter : Browsing the internet

### Browsing the internet

The internet is a worldwide network of computers which allows sharing of information. The internet connects millions of computers around the world. Thus we need the internet for education, research communication and businesses etc.

The things which are required to get connected to the internet is a modem, internet service provider, phone line and a web browser. Thus with these things we can use the net by surfing through the web(world wide web) which has millions of pages of information on different topics as desired from person to person.

### Fill in the blanks

- 1.A \_\_\_\_\_ of connected \_\_\_\_\_ networks is spread all over the \_\_\_\_\_.
